Official recognition of disability status (RQTH)

POSITIONS

Postdoc
Université Mohammed VI Polytechnique – MCGT (since 2024)
Supervised by Rida Laraki

Temporary Teaching and Research Fellow
Université Paris 1 Panthéon–Sorbonne – CES (2021 – 2023)

EDUCATION

PhD in Applied Mathematics
Université Paris 1 Panthéon–Sorbonne – CES (2018 – 2023)
"*New results on Nash equilibria and pairwise stable networks in the semialgebraic case: number, structure, and dynamics*"
Supervised by Philippe Bich

Master's degree in Applied Mathematics
Université Paris 1 Panthéon–Sorbonne (2016 – 2018)

Master's degree in Economics and Psychology
Université Paris 1 Panthéon–Sorbonne (2015 – not completed)

Bachelor's degree in Economics
Université de Lorraine (2013 – 2015)

Bachelor's degree in Economic and Social Administration
Université de Lorraine (2012 – not completed)

Associate's degree in Business Administration
Université de Lorraine (2010 – 2012)

PUBLICATIONS

J. Fixary, "**Unknottedness of Graphs of Pairwise Stable Networks & Network Dynamics**", *Journal of Mathematical Economics*, 2025, vol. 120

P. Bich, J. Fixary, "**Oddness of the Number of Nash Equilibria: The Case of Polynomial Payoff Functions**", *Games and Economic Behavior*, 2024, vol. 145

P. Bich, J. Fixary, "**Network Formation and Pairwise Stability: A New Oddness Theorem**", *Journal of Mathematical Economics*, 2022, vol. 103

WORKING PAPERS

P. Bich, J. Fixary, "**Oddness of the Number of Nash Equilibria in the o-minimal Case**"

P. Bich, J. Fixary, "**Sequential Network Formation: New Stability Concepts**"

R. Castera, J. Fixary, R. Laraki, "**A Unified Framework for Weighted Hypergraphic Networks and Fractional Matching**"

J. Fixary, R. Laraki, "**Proper Equilibria with Finite Deviations in Continuous Games**"

J. Fixary, E. Macault, T. Tomala, "**Dynamic Weighted Network Formation with Incomplete Information**"

J. Fixary, B. Monet, "**A Category-Theoretic Approach to Axiomatic Decision Theory**"

TALKS

"**Contributions to the Study of Similarities Between Networks and Games: An Unknottedness Result and Network Dynamics**", *SAET*, 2025

"**An Introduction to Network Formation Theory**", *Mathematics and Decisions*, 2025

"**Sequential Network Formation: New Stability Concepts**", *SMAI-MODE*, 2020

TEACHING

General equilibrium theory
Université Mohammed VI Polytechnique (since 2024)

Linear algebra
Université Paris 1 Panthéon–Sorbonne (2018 – 2023)

First-order logic and set theory
Université Paris 1 Panthéon–Sorbonne (2018 – 2023)
